The simple and compact device which automatically calibrates the water level with 2 cm accuracy and sends the data as SMS alerts to the users based on the set Empty and Full level. These parameters can be configured through SMS and this SMS can be configured to two mobile numbers.

## General Specification

Peak Current	2mA (During SMS)
Average current	30mA
Sleep Current	20uA
Connectivity	2G-GSM
Operating frequency	850/ 900/ 1800/ 1900MHz
Antenna	PCB antenna
Sensor	Ultrasonic sensor
Water Level Measurement	150cm.
Configuration Type	SMS only
Output	Alerts only (Through SMS) Empty / Mid / & Full
Temperature	5° to 55°C

## Battery

Battery Model	AA Alkaline Battery
No of Batteries	6 No's
<b>Life time</b>	<b>6 Months</b>

Charging Type

Non-rechargeable

## Mechanical

Size

Radius 90mm, Height 65mm

Net Weight

330 grams

## Warranty

Warranty Summary

1 Year (\*Only Manufacturing Defects)
